

CARLOS F. MENA

Hayek 209
Universidad San Francisco de Quito
Quito 170901
Ecuador
+593 9844239927
cfmena@gmail.com
www.cmena.org

Professor, School of Biological and Environmental Sciences
Director, USFQ Institute of Geography (institutodegeografia.org)
Co-Director, Galapagos Science Center (galapagossiencecenter.org)
Director, USFQ Campus Galapagos
Universidad San Francisco de Quito (USFQ), Ecuador

Adjunct Professor, Department of Geography
University of North Carolina at Chapel Hill, USA

Bio-Sketch

Dr. Carlos F. Mena is the Founding Director of the USFQ Institute of Geography and Founding Co-Director of the Galapagos Science Center. Carlos F. Mena is Professor of Geography in the School of Biological and Environmental Sciences at USFQ and Adjunct Professor of Geography at the University of North Carolina at Chapel Hill. He is also Founding Member of the Ecuadorian Association of Geographers, and he is an elected member of the Ecuadorian Academy of Sciences. Carlos F. Mena obtained his Ph.D. in Geography from the University of North Carolina at Chapel Hill, USA and has been conducting research in the Amazon and Galapagos Islands for more than twenty years.

Since 2010, Carlos F. Mena co-created, developed, and leads the Galapagos Science Center (GSC), in association with the University of North Carolina at Chapel Hill. The GSC is an interdisciplinary research center on San Cristobal Island in the Galapagos Archipelago of Ecuador for the advancement of science, conservation, and sustainable development of the Galapagos and Ecuador. The GSC is an administrative, logistical, and scientific structure designed to promote research, education, and community development in the Galapagos Islands. The GSC, dedicated in 2011 and ~2200m² in size, houses four unique laboratories: terrestrial ecology, marine ecology, micro- and molecular-biology, spatial analysis, and has spaces for community events and classrooms. GSC develops more than 60 projects per year, working with more than 40 principal investigators, and has a permanent staff of 16 people. Mena also co-created and manages the International Galapagos Science Consortium, a network of international universities, that develops research projects in the Galapagos Islands through the Galapagos Science Center. The consortium now includes James Cook University and the University of the Sunshine Coast, Australia as well as the University of South Alabama and North Carolina State University, beginning January 2023., USA.

The USFQ Institute of Geography (USFQ-IG), created by Carlos F. Mena in 2016, is an interdisciplinary space at the Universidad San Francisco de Quito to foster geographic research and

education in Ecuador. It employs eight full time spatial analysts and encompasses 14 projects developed in the Ecuadorian and Peruvian Amazon and the Choco region of Ecuador.

Carlos F. Mena has won several prestigious academic honors, including, the Earth Systems Science Fellowship from the US National Aeronautics Space Administration (NASA), the pre-Doctoral Traineeship from the US National Institutes of Health (NIH), Fogarty International Center, and the Anne U. White Fund Grant from the Association of American Geographers (AAG). Mena is co-editor of the book series “Social and Ecological Interactions in the Galapagos Islands,” published by Springer Science and Business Media, now Springer Nature, with ten volumes in print. Carlos F. Mena has authored and co-authored more than 60 peer review publications (papers and book chapters) and has co-edited three books.

Through a portfolio of research projects, his research has covered topics of coupled human-environment systems, demography and environment, remote sensing and geographic information science, complex adaptive systems, population geography, conservation of tropical forests, political ecology, citizen science, climate change, and community development. Carlos Mena’s research has been funded by organizations, such as, USAID, US Department of State, the US National Academy of Sciences, and International Organizations, such as, the Netherlands Organization for Scientific Research (NWO), the Inter-American Institute for Global Change, the Ecuadorian Government, among others. Currently, Mena has been awarded a grant to assemble a Latin American HUB to study the second order effects of the COVID19 pandemics, funded by the US State Department and the Association of American Geographers.

EDUCATION

University of North Carolina at Chapel Hill, USA

Ph.D., Geography, 2007

Graduate Certificate in International Development, 2006

Florida International University, Miami, FL, USA

M.Sc., Environmental Studies, 2001

Escuela Politécnica del Ejército, Quito, Ecuador

Geographic and Environmental Engineer, 1999

PROFESSIONAL EXPERIENCE

Universidad San Francisco de Quito, Ecuador

Professor, School of Biology and Environmental Sciences, 2008-Present

Director, USFQ Campus in the Galapagos Islands, 2021-Present

Co-Director, Galapagos Science Center, 2010-Present

Director, USFQ Institute of Geography, 2016-Present

Director, Graduate Program in Tropical Ecology, 2009, 2014-2015.

University of North Carolina at Chapel Hill

Post-Doctoral Researcher, Department of Geography, Fall 2007

Teaching Fellow, Department of Geography, Fall 2006

Research Assistant, Department of Geography & Carolina Population Center, 2002-2007

Florida International University.

Research Assistant, Andean Amazon Rivers Analysis and Management Project (AARAM), 2000-2002

EcoCiencia, Fundación de Estudios Ecológicos. Quito, Ecuador.

Geographical Analyst, 1998-1999

SELECTED RECOGNITION & RESPONSIBILITIES

- Recognition Award, *10-Years Anniversary of the Galapagos Science Center*, Universidad San Francisco de Quito, 2022.
- Board Member, *Tiputini Biodiversity Station*, Universidad San Francisco de Quito, 2019 – 2024.
- Member, Science Panel for the Amazon: a scientific panel to advise The United Nations in topics related to the Amazon Basin. *Sustainable Development Solutions Network & Academia Brasileira de Ciencias*. 2019-2021.
- International Advisor, Board of Directors. *The International Institute of Social Studies* at Erasmus University, Rotterdam, Netherlands. 2019.
- Leading Author, IPCC Special Report on “Climate Change, Desertification, Land Degradation, Sustainable Land Management, Food Security, and Greenhouse Gas Fluxes in Terrestrial Ecosystems”. *Inter-governmental Panel on Climate Change - IPCC*. 2017-2019
- Leading Author, Assessment on Adaptation Actions to Climate Change in the RIOCC Countries. *Iberoamerican Network of Climate Change Offices*. 2017
- Founding Member, *Ecuadorian Association of Geographers*, 2016
- National Association of Foreign Student Affairs (NAFSA), Association of International Educators. *Senator Paul Simon Spotlight Award* for the Galapagos Initiative collaborative partnership between UNC-Chapel Hill and the Universidad San Francisco de Quito and the development of the Galapagos Initiative (CF Mena & SJ Walsh, Program Founders & GSC Co-Directors), 2016
- Elected Member, 2014. Board 2019-2020. *Ecuadorian Academy of Sciences*, 2014
- Journal of Geography Award. Best paper in Geographical Education. *US National Council for Geographical Education*. 2015.
- Member, Steering Committee 2008-2010. *International Geographic Union*, Land Use and Land Cover Commission.

- Earth Systems Science Fellowship. *US National Aeronautics & Space Administration (NASA)*, 2004-2007
- Pre-Doctoral Traineeship. *NIH Fogarty International Center - Carolina Population Center*, 2002-2004
- Anne U. White Fund Grant. *Association of American Geographers*, 2006
- Residency Grant. Mellon Foundation - *Carolina Population Center*, 2005
- Future Faculty Fellowship. *UNC Center for Teaching and Learning*, 2006
- Pre-Dissertation Fieldwork Award. *UNC Institute Latin American Studies - The Tinker Foundation*, 2004
- NSF-IGERT Travel Grants. IGERT Program. *Carolina Population Center - National Science Foundation*, 2004-2007
- Latin America and Caribbean Scholarship, *Florida International University*, 2000-2001

RESEARCH GRANTS AND CONTRACTS (Selected)

Principal Investigator. *MapGive Participatory Mapping Partnerships – Latin America Hub*. American Association of Geographers (AAG), U.S. Department of State. 10/2021-10/2022. US\$40,812.

Co-Principal Investigator. *Improving Response to Malaria Outbreaks in Amazon-Basin Countries (Geomalaria)*. US National Institutes of Health, Subcontract with Duke University (Pan W., PI). 11/2021 – 8/2026. \$265,330

Principal Investigator. *Latin American Hub: Cities' Covid Mitigation Mapping (C2M2) Program*. American Association of Geographers (AAG), U.S. Department of State. 11/2020-11/2021. US\$158,000.

Co-Principal Investigator. *Reducing the Impacts of Plastic Waste in the Eastern Pacific Ocean*. UK Research and Innovation, Subcontract with University of Exeter (Walloway T, PI). 8/2021-8/2025. US\$314,673

Principal Investigator. *All Eyes in the Amazon (AEA) Northeast Ecuador Site*. HIVOS. 07/2018 – 03/2022. US\$401,000.

Co-Principal Investigator. *Barcoding Galapagos: Recording and Mitigating Covid-19 Impacts Using Key-Workers in Eco-Tourism*. UK Research and Innovation, Subcontract with University of Exeter (Russell A, Bonneaud C, Chaves J, Pazmiño D, Co-PIs). 8/2021 – 11/2021. US\$825,613

Principal Investigator. *Proposal Development for the Green Climate Fund (GCF) for the Adaptation to Climate Change of the Galapagos Islands*. The Food and Agriculture Organization of the United Nations (FAO) and the Ecuadorian Government. 12/2019 – 12/2020. US\$40,000.

Principal Investigator. *Development Plans, Territorial Zoning and Livelihood Planning in the Northern Ecuadorian Amazon*. United Nations Development Program (UNDP). 12/2019 - 08/2020. US\$571,100.

Principal Investigator. Community-Based Monitoring: Biodiversity, Climate and Oil Pollution in the Ecuadorian Amazon. INEDITA Program. SENESCYT and United Nations Development Program. 6/2019 – 6/2022. US\$200,000.

Principal Investigator. Community-based Early Warning System for Malaria: Linking Climate Change, Migration and Deforestation. INEDITA Program. SENESCYT and United Nations Development Program. 6/2019 – 6/2021. US\$49,900.

Principal Investigator. *Mapping Urban Vulnerability and Resilience: Water, Structural Poverty and Social Cohesion in Esmeraldas City of Ecuador*. Secondary Cities Program. US State Department and the American Association of Geographers (AAG). 9/2017-9/2019. US\$250,000.

Co-Principal Investigator. *Behavioral Responses to Information on Contaminated Drinking Water: Evidence from the Ecuadorian Amazon*. International Initiative for Impact Evaluation (3ie), subcontract with the International Institute for Social Studies (Pellegrini L, Arsel M, Orta M, co-PIs). 1/2016-12/2017. US\$99,500.

Co-Principal Investigator. *Community Monitoring of Socio Environmental Liabilities with Advanced Technologies in Ecuador and Peru*. International Initiative for Impact Evaluation (3ie). Subcontract with the International Institute for Social Studies. (Pellegrini L, Arsel M, Orta M, co-PIs). 10/2016 – 8/2018. US\$64,000.

Co-Principal Investigator. *An Early Warning System for Vector-borne Disease Risk in the Amazon*. The National Aeronautics & Space Administration. Sub-contract with Duke University (Pan W, PI). 8/2015 – 7/2018. US\$29,000.

Co-Principal Investigator. *Land Use and Infectious Disease in Western Amazon*. Inter-American Institute for Global Change Research – IAI. Subcontract with Universidade Federal de Minas Gerais (Barbieri A, Pan W, Miranda J, Co-PIs). 7/2013-7/2018. US\$211,000.

Co-Principal Investigator. *Improving University Education and Research on the Ecuadorian Amazon: A New Partnership*. USAID Initiative for the Conservation for the Andean Amazon (ICAA). Subcontract with University of North Carolina at Chapel Hill (Bilsborrow RE, Walsh SJ, Co-PI). 1/2013-06/2015, \$326,000

Co-Principal Investigator. *Nationalization of Natural Resources, Cooperation and Conflict in Bolivia and Ecuador*. Netherlands Organization for Scientific Research (NWO), Subcontract with HIVOS (Murshed SM, Arsel M, Pellegrini L, van de Schoot T, Gruenberger J., Co-PIs). 04/2014 – 06/2016. US\$324,200

Co-Principal Investigator. *Tourism Growth Scenarios and Impacts in the Galapagos Islands*. Ministry of Environment of Ecuador & World Wildlife Fund (Walsh SJ, Co-PI). 03/2014 – 03/2016. US\$80,000

Principal Investigator. *Impacts of Glyphosate in the Ecuadorian Amazon*. Foley and Hoag, LLC for the Ecuadorian Government. 01/2013 – 12/2015. US\$30,000

Principal Investigator. *REDD based Forest Expansion, Food Consumption, and Reduced Emissions Agricultural Policies in the Ecuadorian Amazon*. PEER Program: US National Academies of Science, US National Science Foundation, USAID. 6/2012 – 6/2015. US\$136,500

Co-Principal Investigator. *Modeling Population-Environment Interactions in a World Heritage Site: Comparison of Statistical and Agent Based Modeling Approaches to Study Complex Systems*. James S. McDonnell Foundation (Walsh SJ, PI). Sub-Contract with the University of North Carolina at Chapel Hill, 1/2012 – 1/2015. US\$30,000

Principal Investigator. *Atlas of Culture of Ecuador*. Ministry of Culture of Ecuador and Spanish Cooperation Agency. 1/2009 – 12/2009. US\$51,200

PUBLICATIONS

BOOK SERIES, EDITOR: Springer Nature

Launched a Book Series on the Galapagos Islands, “Social, Terrestrial, and Marine Interactions in the Galapagos Islands,” with Springer Nature, SJ Walsh and CF Mena, Series Editors, books in the Series are as follows:

Walsh SJ & **Mena CF** (Guest Editors), 2013. Science and Conservation in the Galapagos Islands – Frameworks & Perspectives. In the Galapagos Book Series, *Social, Terrestrial, and Marine Interactions in the Galapagos Islands* (Walsh SJ & Mena CF, Series Editors), Springer Nature, 243p.

Trueba G. & Montufar C. (Guest Editors), 2013. Evolution from the Galapagos: Two Centuries after Darwin. In the Galapagos Book Series, *Social, Terrestrial, and Marine Interactions in the Galapagos Islands*,” (SJ Walsh & CF Mena, Series Editors), Springer Nature, 168p.

Denkinger J, Vinueza L. (Guest Editors), 2014. The Galapagos Marine Reserve: a Dynamic Social-Ecological System. *In: the Galapagos Book Series, Social, Terrestrial, and Marine Interactions in the Galapagos Islands* (Walsh SJ and Mena CF, Series Editors), Springer Nature, 314p.

Quiroga D, Sevilla A. (Guest Editors), 2016. Darwin, Darwinism and Conservation in the Galapagos Islands. *In: the Galapagos Book Series, Social, Terrestrial, and Marine Interactions in the Galapagos Islands* (Walsh SJ and Mena CF, Series Editors), Springer Nature, 164p.

Parker, PG (Guest Editor), 2018. Disease Ecology: Galapagos Birds & Their Parasites. *In: the Galapagos Book Series, Social, Terrestrial, and Marine Interactions in the Galapagos Islands* (Walsh SJ and Mena CF, Series Editors), Springer Nature, 330p.

Tyler, M.E. (Guest Editor), 2018. Sustainable Energy Mix in Fragile Environments – Frameworks and Perspectives. *In: the Galapagos Book Series, Social, Terrestrial, and Marine Interactions in the Galapagos Islands* (Walsh SJ and Mena CF, Series Editors), Springer Nature, 205p.

Torres, M.L. & Mena, C.F. (Guest Editors), 2018. Understanding Invasive Species in the Galapagos Islands: From the Molecular to the Landscape. *In: the Galapagos Book Series, Social, Terrestrial, and Marine Interactions in the Galapagos Islands* (Walsh SJ and Mena CF, Series Editors), Springer Nature, 237p.

Kvan, T. & Karakiewicz, J.A. (Guest Editors), 2019. Urban Galapagos -- Transitions to Sustainability in Complex Adaptive Systems. *In: the Galapagos Book Series, Social, Terrestrial, and Marine Interactions in the Galapagos Islands* (Walsh SJ and Mena CF, Series Editors), Springer Nature.

Walsh, S.J., Riveros-Iregui, D., Arce-Nazario, J., Page, P.H. 2020. Land Cover/Land Use Change on Islands: Threats to Sustainability *In: the Galapagos Book Series, Social, Terrestrial, and Marine Interactions in the Galapagos Islands* (Walsh SJ and Mena CF, Series Editors), Springer Nature.

Thompson, A.J., Ochoa-Herrera, V., Teran, E., 2022. *Water, Food, and Human Health in the Galapagos Islands: A Little World Within Itself*. “Social and Ecological Interactions in the Galapagos Islands” (SJ Walsh, CF Mena, Series Editors), Springer Nature.

Walsh, S.J., Mena, C.F., Stewart, J.R., Munoz, J.P., Forthcoming 2023. *Island Ecosystems: Challenges to Sustainability*. “Social and Ecological Interactions in the Galapagos Islands” (SJ Walsh, CF Mena, Series Editors), Springer Nature.

EDITED BOOKS

Walsh SJ and **Mena CF**, Editors (2013) *Science and Conservation in the Galapagos Islands: Frameworks and Perspectives*. Springer Science & Business Media. New York.

Torres ML and **Mena CF**, Editors (2018) *Understanding Invasive Species in the Galapagos Islands: From the Molecular to the Landscape*. Springer Science & Business Media. New York.

Encalada AC, Guayasamin JM, Suárez E, **Mena CF**, et al. (2019). *Los ríos de las cuencas Andino-Amazónicas: Herramientas, y guía de invertebrados para el diseño efectivo de programas de monitoreo*. Trama, Quito, 224 pp

Walsh, S.J., Mena, C.F., Stewart, J.R., Munoz, J.P., Editors, (Forthcoming 2023). *Island Ecosystems: Challenges to Sustainability*. “Social and Ecological Interactions in the Galapagos Islands” (SJ Walsh, CF Mena, Series Editors), Springer Nature.

PEER REVIEWED PUBLICATIONS

Mena CF, Benitez FL, Jager H, Carrion C, Escobar D, Rosero P, Maldonado P, Cuesta F (In Review). Modeling of invasive species and restoration in the context of climate change: the case of guava in the Galapagos Islands. *Annals of the American Association of Geographers*

Orta-Martinez M, Arsel M, Pellegrini M, **Mena CF**. (In review). Barriers to redress of environmental harm from oil extraction in the Amazon. *Environmental Research Letters*

Orta-Martínez M, Arsel M, Pellegrini L, Muñoa G, **Mena CF** (Accepted). Unburnable fossil fuels and Climate Finance: compensation for right holders. *Global Environmental Politics*

Mena CF, Lozada B, Martinez P, Benitez FL, Sampedro C, Zapata MB (In Press). COVID19 and Domestic Violence Complaints in Quito, Ecuador: Temporal and Spatial Patterns, and Drivers, in: Laituri M, Richardson BR, Kim J (Editors). *The Geographies of COVID-19: Geospatial of Global Pandemics*. Springer Nature, New York.
